Founding Philosophy (Kaupapa)

The philosophy of 'Step Ahead' embraces the concept of a progression away from illness and institutional care or dependency, towards wellness and a level of independence in the community.

Central to this philosophy is a healthy attitude towards both members and rehabilitation. This means taking a positive, non-judgemental and accepting attitude towards members, rather than 'labelling' them with an illness.

Step Ahead uses a 'community development' approach in serving its members. This means encouraging members to do things for themselves rather than having things done for them.

Another important aspect of Step Ahead's philosophy is to work with the positive. One expectation this carries is, that members have the right to make decisions for themselves and accept responsibility for the outcome, be it success or failure. Members choose for themselves and accept responsibility as to whether they avail themselves of our services or not, whether to get involved, and to what extent.

The task of Step Ahead is not to do for members but to motivate, support, and to enable members to take responsibility for themselves.

Vision

Step Ahead contributes to the wellbeing of people with mental illness by providing choices, opportunities, support and encouragement to enable them to live well in their communities.

Mission

To enhance the well being of people who experience serious mental illness by providing community based services that support them in their own recovery

Background Information

The original idea for a community based rehabilitation programme in Christchurch came from the Schizophrenia Fellowship, who saw a need for the people who attended their drop-in centre to be involved in rewarding activities. From this identified need, Step Ahead began in 1983.

Since its inception Step Ahead has become an independent organisation that is a charitable trust overseen by a Board of Trustees.

Step Ahead's Trust Board is made up of member representatives and representatives from the community. The Trust Board has overall responsibility for the successful functioning of the organisation.

Client Statement

The clients of Step Ahead are known as 'members' and 'join' the organisation, in much the same way as joining any other club or organisation. There is an annual membership fee of \$10.00.

Members and staff work together to plan and provide comprehensive programmes that offer social, educational, recreational, pre-vocational activities and opportunities at several locations across Canterbury.

All members receive a copy of the newsletter and new programmes each month.

Members are people who:

- have a diagnosed mental illness
- are usually aged between 18 and 65 years
- are able to attend and participate independently.

We encourage self-referrals, however you can be referred by your health professional if you choose.

Activities programmes include the following:

- Art and crafts
- Community participation
- Education
- Employment support
- Evening activities
- Health and fitness
- Personal development
- Prevocational
- Social
- Special trips and outings
- Sport and recreation
- Volunteer opportunities

Socialising, making new friends, participating in activities you enjoy, having a sense of purpose in your day, learning new things and having fun, are some of the reasons current members come to Step Ahead.

Peer Supporters

Step Ahead Peer Supporters are members who are available to provide support to other members and prospective new members.

Aims and Objectives

- To provide social and pre-vocational rehabilitation for progression away from illness and institutional care or dependency towards a state of good health, wellness and a level of independence in the community.
- To offer Members an environment within which they can learn to live well in the community and to experience and practice life skills.
- To provide Members with the opportunity to meet people, make friends and have fun.
- To provide the opportunity for the development of work skills and work habits through involvement in activities and in the running of Step Ahead.
- To offer a source of information on community resources.
- To encourage and support Members to make their own decisions and to accept responsibility for the outcome.
- To maintain a partnership between Members, Staff and Management at Step Ahead so that whenever possible, all are involved in the decision making processes.
- To uphold the spirit of the Treaty of Waitangi and New Zealand's multi-cultural heritage.
- To provide a programme of activities aimed at the expressed needs of its members and encourage their involvement throughout the organisation.

Attendance at any activity is voluntary and the decision to attend belongs to the member only.
